

District **TANDO ALLAHYAR**
Province Sindh
Population 0.922 Million
Climate Subtropical Desert Climate
Altitude 22 m above sea level
Average annual rainfall 142 mm
Temperature range 21° C to 32° C

Farmer’s Experience

(Village: Piyaro Lund Road, Tehsil: Tando Allahyar)

Farmers shared that this practice, although requiring full-time commitment, yields good profits. It includes drip irrigation, which **saves up to 75% water compared to conventional methods**. Fertilisers mixed with water and applied through the drip system have shown excellent results, providing returns five times higher than conventional farming. Tunnel farming also generates significant employment, especially for women, who handle tasks like inter-culturing, picking, and processing crops like cucumber, ladies’ finger, bitter gourd, ridged gourd, and tomato. Initially practiced on 2-3 hectares, it has now expanded to almost 80 hectares. The farm generated job opportunities for 500 field workers (male/female).

Conserves more water compared to flood irrigation
