

District	KHAIRPUR
Province	Sindh
Population	2.597 Million
Climate.....	Subtropical Desert Climate
Altitude	54 m above sea level
Average annual rainfall	196 mm
Temperature range.....	23° C to 35° C

Farmer’s Experience
 (Village: Pir-Jo-Goth, Tehsil: Kingri)
 Inspired by farmers in Hyderabad, Pakistan and instructional online videos, some farmers have started extracting fibre from banana trunks, realising the advantages of banana fibre, such as its durability and biodegradability. They also recognised the potential of using fibre bags as an eco-friendly alternative to plastic bags, which can naturally decompose, offering benefits for both agriculture and waste management.
