

Scaling Potential

Ring basin irrigation is suitable for all orchard plants, including date palm, guava, zizyphus, mango, and chikoo. This practice has the potential to be scaled up in districts like Larkana, Sukkur, Khairpur, Naushahro Feroze, Shaheed Benazirabad, Sanghar, Matiari, Hyderabad, Tando Allahyar, Mirpurkhas, Tando Muhammad Khan, Thatta, Badin, Sujawal, and Karachi's periphery.
